

# Local Operation Procedures for Desert Aire Airport

## *Desert Aire Airport Noise Mitigation Procedures*

### **When the wind is less than 5 knots**

#### Arrivals

1. Use the right hand traffic pattern for runway 28.
2. When departing runway 28 continue straight to the river before commencing turns.
3. No "touch & go's" before 8am.

#### Departures

1. Use runway 10 for departure.

## *Ultra Light Procedures*

### **Light Wind or No Wind**

1. Use R/W 10 for Departure, R/W 28 for Arrival
2. Traffic Patter Altitude, 1100 MSL.
3. Announce intentions on CTAF 122.8

### **Wind above Allowable Operating Limitations**

1. Use R/W most directly aligned with the wind.
2. To the extent possible, avoid flying over homes.
