Request for One Time High Water Bill Relief

I _____ at _____ am requesting to have my water bill reduced due to a leak in my system that has been repaired and inspected by purveyor.

I do understand and acknowledge that this is a one-time relief and I will not be able to use it again for as long as I own the property. The reduced bill will be computed by using the highest billing for the past four readings or half of the current billing at this address, whichever is greater.
